

Mortar Spray Guns

MG.2D

- Ideal for spraying pavements and walls as the nozzle swivels to point down or straight ahead. Sprays mortar and texture type materials up to medium viscosity.
- This unit comes standard with three fluid nozzle sizes for spraying materials with small to coarse particle size. The MG.2D also comes with material shut off valve.
- Sprays mortar and texture coatings.

TECHNICAL		Fluid Nozzle Size mm	Air Nozzle Size mm	Material Capacity litre	Bowl Type	Operating Air Press. bar (psi)	Air Consumption l/min (cfm)	Spray Direction	Weight g
Order No.	Description								
MG.2D	Texture Spray Gun	3.8/6.0/7.0	1.5	2	Plastic	3 (44)	76 (2.7)	Free	660

MG.3C

- The MG.3C is ideal for spraying plaster and high viscosity materials. The three fluid nozzles allow spraying of materials with medium to coarse particle size.
- Sprays plaster.

TECHNICAL		Fluid Nozzle Size mm	Air Nozzle Size mm	Material Capacity litre	Bowl Type	Operating Air Press. bar (psi)	Air Consumption l/min (cfm)	Spray Direction	Weight g
Order No.	Description								
MG.3C	Plaster Spray Gun	5.0/6.5/8.0	3	2.7	Metal	1.5 (22)	170 (6.0)	Fixed	650

MG.6C

- The MG.6C multi purpose spray gun has 13 kinds of standard nozzles.
- With three air nozzles and 10 fluid nozzles to choose from, this spray gun is ideal for spraying a wide range of materials, such as texture, mortar, stucco and plaster. This also allows spraying of materials with small to coarse particles and materials of high or low viscosity.
- Sprays mortar, texture, stucco and plaster.

TECHNICAL		Fluid Nozzle Size mm	Air Nozzle Size mm	Material Capacity litre	Bowl Type	Operating Air Press. bar (psi)	Air Consumption l/min (cfm)	Spray Direction	Weight g
Order No.	Description								
MG.6C	Multi Purpose Spray Gun	3.8/4.5/6.0/8.0	1.8	3	Metal	1-3 (15-44)	76-280 (2.7-9.9)	Fixed	720
		8.0/12.0/15.0	2.5/3.0						
		5.0/6.5/8.0	2.5/3.0
