

# Joucomatic Filter/Regulators

MR342

## Mini Regulator And Gauge

- Locking "Pull - Push - Turn" control knob
- Maximum inlet pressure - 12 bar
- Adjustment range - 0.5 - 10 bar
- Inlet/Outlet - 1/4" BSP
- Air flow - 650 l/min (23 cfm)

Order No.	Description
MR342	Mini Regulator with gauge

LFR107

LFR112

## Compact Filter Regulator

- Lightweight, compact filter regulator, ideal for the professional with portable compressor or one tool end line operation
- Filtration - 25 microns
- Air flow 1274 l/min (45 cfm)
- Semi automatic water drain
- Inlet/Outlet - 1/4" BSP
- Complete with gauge and bracket

Order No.	Description
LFR107	Mini Regulator with gauge
97802075	Service Kit LFR107
97802072	Filter Element 25 microns

CFR112

97801731

## Workshop Filter Regulator

- High air flow ideal for multiple end line usage in the workshop
- Locking "Pull - Push - Turn" control knob
- Filtration - 25 microns
- Air flow 2973 l/min (105 cfm)
- Semi automatic water drain
- Inlet/Outlet - 1/2" BSP
- Complete with gauge and bracket

Order No.	Description
LFR112	Workshop Filter Regulator
97801773	Service Kit LFR112/CFR112
97801732	Filter Element 25 microns

COA112

97801005

## Combination Filter Regulator And Coalescer Filter

- Ideal air breathing. Two stage filtration
- Provides a high level of filtration of solid particles, oil and water aerosols
- Locking "Pull - Push - Turn" control knob
- Polycarbonate bowl with metal guard and safety lock
- First stage filtration - 5 microns
- Second stage filtration - 0.01 micron
- Air flow 1047 l/min (47 cfm)
- Semi automatic drain
- Inlet/Outlet - 1/2" BSP

Order No.	Description
CFR112	Filter Regulator & Coalescer
97801773	Service Kit LFR112/CFR112
97801731	1st Stage Filter 5 micron
97801005	2nd Stage Filter 0.01 micron

## Coalescer Filter

- Filtration - 0.01 micron
- Air flow 1047 l/min (47 cfm)
- Semi automatic drain
- Inlet/Outlet - 1/4" BSP

Order No.	Description
COA112	Filter Regulator & Coalescer
97801005	Coalescer Filter only
