Medea Com-Art Colours

→ All airbrush colours are not the same. Com-Art Colours are considered to be one of the finest and most versatile professional airbrush colours in the world. Com-Art Transparent and Opaque Colours can be used together without bleeding between colours. This non-toxic, ready to use paint is specifically formulated for use with an airbrush and never needs to be filtered or strained. Com-Art Colours are heavily pigmented and light fast, allowing for accurate 4-colour separations. They provide superior atomization, smooth spraying, and they dry instantly. Primary uses for Com-Art is illustration board, paper or canvas. Com-art is available in a variety of sizes and in 27-opaque, 18-transparent, 6-neutral grays, and 4-repro colours (for special four colour process work).
